

Recall

# KIA Telluride

RECALL DATE: 14/05/2025

Brand of Commodity	Year of Production*	#Number of Affected Commodities
KIA Telluride (ON)	Jan 26, 2019 - Sep 15, 2020	84

\*Not all vehicles in this production period, are affected.

#Subject to revision, based on the information received from the manufacturer, from time to time.

## Recall consequence

On some Telluride (ON) model produced within specific production date range, the headlamp assembly can independently become damaged due to heat generated from the halogen bulb. If this occurs, the high beam is no longer working properly. This condition does not affect the operation of the low beams. The loss of high beams can reduce visibility in certain areas with limited surrounding lighting, thereby increasing the risk of a crash. The estimated defect ratio is 1%. However, Kia is conducting this recall as preventive measure to avoid the risk.

## Recall Action

Verify affected vehicles as per the VIN list, Replace or Repair headlamp Assembly as per KMC recommendation

To check the serial number of the affected items, please visit the Recalls and Warnings website by scanning the QR code.
